FOCUSDATASOLUTIONS
Solutions First Managed Services
Cyber Resilience

Solutions First includes the Focus Shield Security Stack. Your team is protected 24/7 with a strong suite of security tools to guard against cybercriminals and data threats.

It's impossible to ignore the number of cyberattacks taking place in today's business world. Everyone is vulnerable to attack. It's vital to take **proactive security** measures to protect yourself, your team, and your company from cybercriminals. Focus Data Solutions security services helps you address threats, provides proactive protection, and helps you train your team to help prevent cyberattacks upon your business.

Focus Shield Advanced Cyber Threat Intelligence Managed Security Services include:

- ✓ 24/7/365 security event monitoring
- ✓ Incident detection and response
- ✓ Security event automation
- ✓ Daily/continuous log review
- ✓ Monthly trend analysis
- ✓ 24/7/365 threat intelligence monitoring

Focus Shield Zero Trust Application Whitelisting

Secure Your Organization with Application Whitelisting
Shield against threats such as viruses, ransomware, and malicious software. Control software access and prevent "shadow IT" within your network.

Security Awareness Training

Security software is essential, but your staff poses a significant risk to IT Strategy
Untrained team members may unknowingly expose your network to cyber threats. Our tailored Focus Shield Security Awareness Training ensures complete IT security for your team.

Your Partner For Tomorrow's IT
